CINCINNATI, May 16.-Robert Day, 27 years old, son of a wealthy farmer living we miles from Loveland, about midnight last night from a circus, intoxicated. The family was awaiting aim. Drawing two revolvers he declared is intention of "cleaning out the ranch. The family hastily left the room. Robert Day, Sr., 65 years old, was the last to leave and his son with deliberate aim fired at and his son with deliberate nim fired at him and sent a bell through his body and he stank to the floor. Young Day then went in search of the other members of the family, but finding none went to an adjoining farm, where Mrs. Hubbell, his divorced wife, lived. He forced an entrance and the noise awakened Mrs. Hubbell, who came out to see the cause. Day meeting her fired, striking her in the stomach. The servant girl fired appeared and he fired at her, giving her a slight wound in the face. He then fired the barn, and kept the neighbors away with his drawn revolvers until the marshal overpowered him, during which Day fired ten shots at the party, one of which ten shots at the party, one of which touched the face of the marshal.

Reports Complimentary to Mr. Needles Made by Special Agents-Chief Mayes Defends His Attitude Regarding the Cherokee Commission-The Course of Events at Guthrie-Territorial Items

WASHINGTON, May 16 .- The attorney eneral has received a report from T. B. Needles, United States marshal of the Indian territory, in regard to the conduct of himself and deputies on the 22nd of April.
"As far as I am concerned," he said, "I have not entered any land or lands, town lot or lots in Oklahoma district and have no interest whatever, directly or indirectly near or remote of any kind or nature in any land or lots in the territory. I do not know positively as to my deputies, but have had an intimation that one of them has secured a town lot in Guthrie and one or two have entered a quarter section of land apiece. I am not positive as to this, but will at once ascertain the facts and report to you. If there are any other viola-tions of law by my deputies I have not heard of them. No person or persons other than those reported by me to you in my communication of the 31st ult. had any authority from me to enter the territory on or before the 22nd uit."

Marshal Needles explains that he did not fully investigate the action of his deputies because two special agents of the land office have been engaged for two weeks in investigating the matter. Their reports have been sent to Washington and he presumed the attorney general had been fully advised in regard to them. He adds that if the attorney general desires it he will go to Muscogee and Guthrie and make a thorough examination as to lands or lots upon which any of his deputies may have

Attorney General Miller said this aftermon that it was but just to Mr. Needles to say that the reports of the special agents showed that he had helped them materially in their investigations and that there was nothing to show that he had done anything wrong. The attorney general added that he would expect Marshal Needles to make an investigation of his deputies in entering lands.

A RAILROAD CASE DECIDED.

Topera, Kan., May 16.—The Kansas railroad commissioners today rendered an important decision regarding Kansas City tracks, in the case between the Union Pacific and the Chicago, Kansas & Nebraska.

On the 23d of November, 1888, a collision of the Coursel between the freight trains of the companies above named at Armstrong, the companies above named at Armstrong the responsibility for which the board of rail-road commissioners, upon the request of road commissioners, upon the request of the Course of the ment and that they wescomed as among them in this our new country. A speech was also made by the medicine man Mustang Jack, which was very appropriate. Jack is a half-breed and can tak the English language fluently. He expects about July to make a trip to the old country and will write a book in the Indian language walle on his tour. The war dance was improved the citize men and chief would while on his tour. The war dance was immense, the older men and chief would sit flat around a large drum which they have, and presently they would commence a drolling, humming noise, which is their way of singing, and all at once one will give the war whoop and then they all jump up, having bells around their ankies, and will commence the dance and when the time comes for the regulared whom one's time comes for the regular old whoop one's hair comes pretty near standing on end.

CHIEF MAYES INTERVIEWED. He Explains Why the Council is Not Convened-Annexation.

TABLEQUAR, L. T., May 16.—Chief Mayes was seen today by a correspondent, and, when asked regarding the calling together of the council, he said: "The council has nothing whatever to do with the matter. You see, the great trouble is that the people do not consider the fact that we have a constitution, just like other nations, and as this constitution says that the lands shall remain in common, how are we go-ing to get around that, other than by coanging our constitution? Our consti-tation provides that to make an amend-ment to it, it is necessary for the council to meet six months before the general election and adopt measures looking to a submission of the proposed amendment to be voted upon. Now, as our next election occurs only three months hence, what is the use in convening the council now?"

"Chief, don't you think that the Cherokee nation could be annexed to the United to the proper division for allowance. Her

about two-thirds of them speak the English language, and, besides, if the land should be alloted it would not be a year until they were cheated out of it by the whites. Then what would they do? If would rather see every Cherokee in his grave than that we should be deprived of our land and our political rights. I do not believe that the United States will take our lands from us against our will."

MURDERED BY A FERRYMAN.

PRAIRIE CITY, I. T., May 15.-Thomas L. Angle died in great agony at 1 o'clock yesterday from the effects of three pistol wounds received at the hands of John Swallow, ferryman, at the Audrian ferry on Grand River. Angle had been to Seneca, Mo., with a friend, and was re-turning homeward at the time of the tragedy. Arriving at Grand river, he hallocd to Swallow to bring the boat across: Swallow replied: "You go to h--." After a few moments, hewever, he crossed, when Angle remarked to him: "Swallow, we have known each other for a long time, and you ought not to curse me that way." His answer was that he would do as he pleased, and, drawing his pistol, fired three shots rapidly into Angle, one of the balls passing through his abdomen. Swallow had been to Seneca, Mo., that day and had been drinking. Angle was a prominent citizen, a man who was respected by all and had many friends. He leaves a wife and several children to mourn his loss. Swallow had heretofore been generally considered as a "good feilow," but somewhat dangerous, especially so when drinking. He is still at large, but his capture in the near future is an assured fact. The funeral of Angle today was largely attended. known each other for a long time, and

IRREGULARITIES AT INDIANAPOLIS. INDIANAPOLIS. May 16. For some time there has been more or less talk of irregularities in the office of Township Assessor Quill. The matter was brought to the attention of the grand jury and that body today returned indictments against Assessor Quill and his chief deputy, Charles Tyler. The men are indicted jointly and there are five counts against each: con-spiracy, grand larveny, oldaining money under false pr tenses, presenting false claims to the county suditor, and presentciaims to the county and horsest-ing false ciaims to the county commission-ers. The indictments are found on the facts of dummines being placed on the as-sessor's pay roll. The evidence sgainst the men is very strong, though both Quill and Tyler say they can explain everything when the proper time comes. Both men were arrested but wer released on \$5,000 beautiful to the county of the coun bond; \$1,000 on each count.
